Are You A Man?

To all American Young Men who are Sons of their Fathers.

Your forefathers of 1776 by their nerve, their blood, and their brave hearts established a free and independent government for their posterity, you and I. At what sacrifice, the history of the country tells you. Your younger forefathers of '81 to '63 saved that country from destruction for their posterity. At what sacrifice, the history of your country tells you also. And that country, your country; the Government of these United States, the grandest Government under the sun, which is to day looked upon by the whole world as the chief of all Governments, and the only star of hope of the whole world, is in great danger of being destroyed from the face of the earth by a foreign foe, who knew not the meaning of the word, mercy. Are you a son of your father or a descendant of your forefathers? If so your country needs you now, and if you are physically and mentally able, it will get you. But how? Are you going to wait to be drafted, or will you show the blood of your forefathers and volunteer openly and boldly like a man—like your fathers did?

The man who tells you that there will accrue as much honor to the drafted man as there will accrue to the volunteer, is giving you taffy, for it will not prove to be facts. All history proves that the man who volunteers purely of his own accord and stands up faithfully to Uncle Sam, makes a good soldier, bares his breast to the enemy's bullets when he is called on. There will be nothing too good nor too honor too great for the people to confer upon him when he has done his part and it is all over. But some will say in their hearts, "Suppose I get killed." What of that? War means that some will get killed. If you let that idea hold you back, you are not a son of your father, you are a coward from the start, not worthy to be called a U. S. Soldier nor an American citizen. But you are not a coward, you are a man, and you are going to volunteer openly and boldly, to stand by Uncle Sam; and when you get into Uncle Sam's uniform with arms in your hands and drilled by his Drill Masters, you are going to prove yourself a man among men, one that Uncle Sam and all Americans will be proud of. Should you get killed or die in the service from sickness, there can be no disgrace attach itself to your memory.

When you get through you will have the consolation in all after life of knowing that you have done something. You will learn and realize with many a happy thought, that it pays to be a friend to Uncle Sam, for he never goes back on those boys, who stand by him when he needs them, he will stay with them through thick and thin. And in your old age when you are down and out, perhaps have met with misfortune, and that is the time when all others, perhaps, have overlooked what you have done; but Uncle Sam remembers and will come to your relief in your old age and have not the strength to help yourself. Uncle Sam will not forget what you did for him and will take care of you as long as you live, and will pin upon your breast a badge of honor, and with your name and services standing out on the records of the war office in Washington, D. C. in bold relief, to be looked upon by all coming generations, as long as time lasts, which will be a heritage to your descendant's names precious there, the purest of gold. Also, the man who volunteers in Uncle Sam's service when he needs him, all of his after life as long as he is able to fill the office, any office under the Government, it will be given him, if he wishes it, in preference of any other man who did not volunteer.

Boys, you know not what a grand opportunity you are about to miss. If I was of the proper age, knowing what I do of such things, no amount of money would keep me from volunteering. You will never have this chance again. There is one of the best and most successful business men, who lives in Doniphan, and is worth quite a competence, told me a few days ago that he would give every dollar he had to have my record of the Civil War behind him. He said it would be worth more to him as a heritage to leave his children than all the money he could leave them.

There is to be a Volunteer Company of Soldiers made up in Ripley County right away. See the recruiting officer and don't miss this chance to get in on the ground floor, and when Uncle Sam gets you all good and ready and says, "Go Boys," you will make those Outrigger boats across the water look like thirty cents, for God blesses Uncle Sam's Boys. They never have and never will be whipped. And I am backing them with every dollar that I can get, that they can whip any set of men that don't outnumber them more than three or four to one, that ever walked upon the face of the earth.

One who has all faith in Uncle Sam's Boys.

Enrolling Company "E."

Captain Lyle Malone, of the Sixteenth Company of the Sixth Missouri Regiment, came in Thursday morning, under instructions from Brigadier General Clark, commanding the National Guard of Missouri, to help push the organization of Company "E" ready for muster by the middle of next week. The Company can be mustered in on an enlistment of 68 men, and then the organization can be completed and the Company filled up to its fighting strength, 150 men later, the mustered in men in the meantime, learning the rudiments of drill and the manual. Nearly 33 names have been put on the roll this week and it is certain that the meeting tomorrow afternoon at the court house, which will be addressed by Captain W. M. Morgan, of Poplar Bluff Company, and Hon. Thos. F. Lane, of the Cape Girardeau Company, of which he is a private, and other speakers, will come. Many eligible men of from 18 to 45, to enroll.

Brigadier General Clark, who is the Commanding officer of the Missouri National Guard, has extended a courtesy to the Ripley County Company that he has not given any other with the Sixth Regiment in giving the Company its old letter number E, in the Fighting sixth, of the Spanish-American War. On the organization of the old company in 1898, he came here and mustered "E" into the service and was afterwards made Lieut. Col. of the regiment and has always had a kindly feeling for Doniphan and her people. Our people appreciate the courtesy and are pushing the organization of the new Company.

If the regimental organization can be completed by the first of July, the regiment will be in camp and undergoing instruction in less than thirty days from this time. Another thing, every man who enrolls now is doing Ripley County a service that neither he nor the people of the county realize, and which is not generally known, and a service that will not be mentioned here, but will be told to all who desire to enlist.

Boys, come to the Colors and join a bunch of Ripley County boys, and let's all go across the blue waters of the Atlantic together, and plant "Old Glory" along with the tri-color. Think it over and get in while getting is good.

Dr. W. O. Proctor cut his second crop of alfalfa this week, and the yield was great. It has been a fine season for alfalfa. He has sixteen acres of wheat yet to cut, and it is very good wheat, too, and the alfalfa is thicker than the wheat and nearly as high. Wheat will be well to cut the coming week.

The Evils Of Constipation.

Constipation is one of the main reasons why the average human life is below 40 years. Leaving waste material in the body, poisons the system and blood and makes it liable to colds, aches, biliousness, nervousness and muddy skin. When you note these symptoms, try Dr. King's New Life Pills. They give prompt relief, are mild, non-gripping in action, add tone to your system and clear the complexion. At your druggist, 25c.

Miss Hazel Hoskinson purchased the first animal out of the ear-load that W. J. Wood shipped in here last week. The animal is a fine dark mare, five years old and was purchased by Miss Hazel before the day of the auction sale last Saturday. Mr. Woods said that Miss Hazel was about as good a judge of horse flesh as he had ever met in his many years of handling horses.
